THIS IS ME.

My name is Pietro Grandis, I was born in Savona (Italy) on March 2, 1994 and I can say that my life and my passion is horse riding, despite everything.

Despite everything, because I was born in Liguria, in a seaside village, perched between the Alps, the Apennines and the sea, everything except green plains and horses.

No "horse man" in my family, just a very passionate and stubborn mother, like me. I started my sports career with ponies, then junior and young rider, in a small and modest equestrian center, clinging to him too, with good results, everyone tells me that I have talent, but to make my life out of it you have to take the big leap, what scares most people. But horse riding never rhymes with fear.. at the age of only 20 the opportunity of my life passes to believe in it and put myself to the test, horse riding rhymes with sacrifice and heart.

Germany and Reitschule Jung welcome me as a working pupil together with my horse, both inexperienced and rough. A lot of work, a lot of effort, a lot of physical and emotional tests, horses who taught me a lot and several lessons that had nothing to do with horse riding, plus a serious accident that forced me to deal with sport and with myself. I started again and the word "awareness" showed me the direction, the first really positive results and gratifications arrive, the working pupil, an Italian in Germany, is now Michael Jung's first rider, eight years of small big steps and it's not over.

In 2022 I made another big decision which led me to my own stable in northern Germany, where I take care and train several horses from Youngsters to 4* Eventers, to which I dedicate my whole passion.

**SINCE MY FIRST
PONY "JAZZ" I HAVE
A BIG DREAM.**

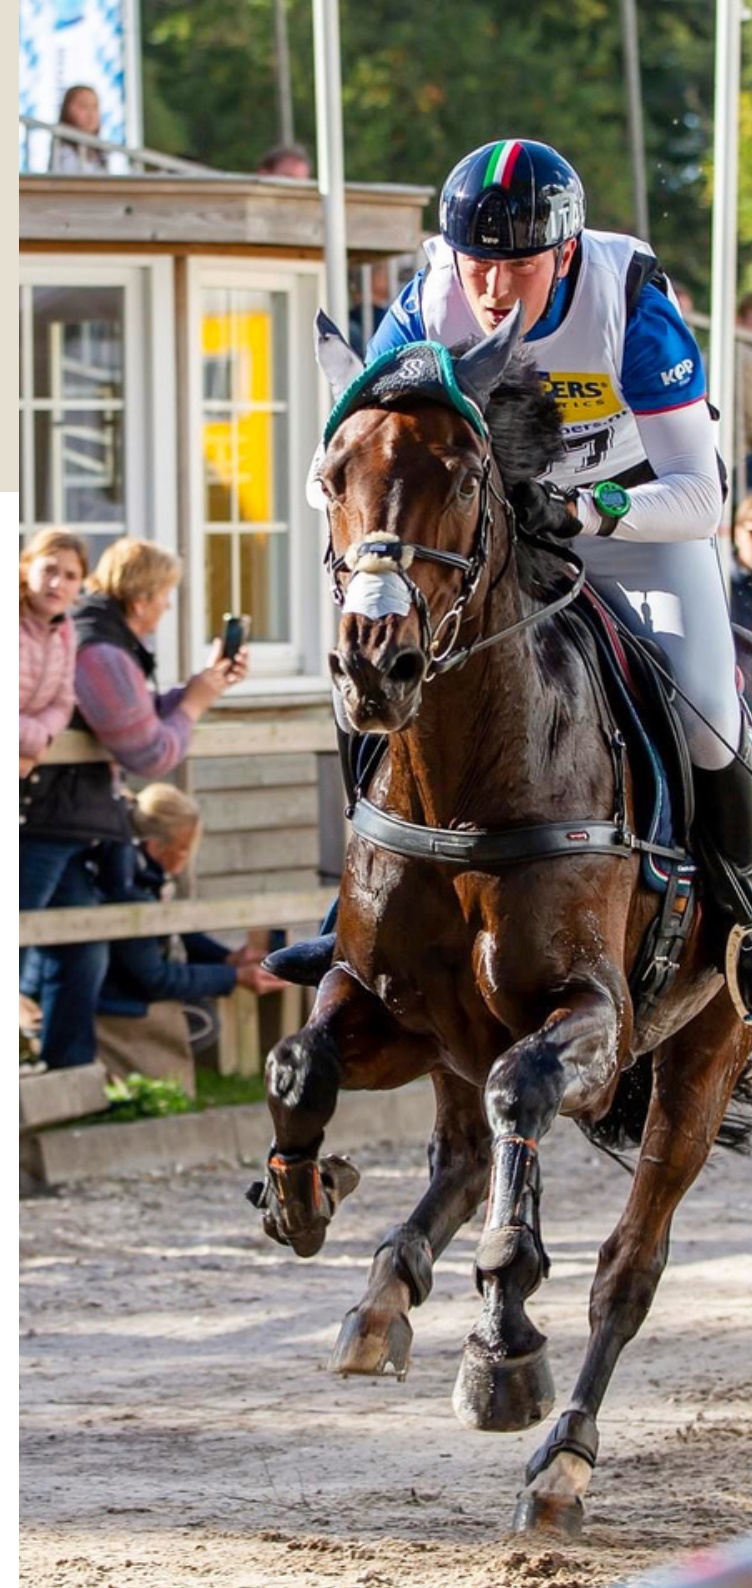

TO WIN THE
OLYMPICS.

**PASSION, DEDICATION,
WORK, EFFORT AND A GREAT
TEAM**
are the key to success.

For the future I'm now looking
for long term partners who
want to join me on the road to
the Olympics.

Dedication, passion and perseverance
make Pietro a model athlete and an
inspiration for athletes and for my work.
Believing in it when everything is going
well is like common sportsmen, believing
it even when things are going in the least
favorable direction is like super heroes.
This is why I believe in Pietro and that
with excellent support he is destined to
become the best....
